FINANCIAL AND COMMERCIAL.

FRIDAY, Feb. 28-6 P. M. The money market continues uncomfortably tight, without apparent cause. The recent fluctuations in the currency are inducing many capitalists to withdraw their funds from th market until the effect of the Treasury Note act is more clearly discerned. A few days ago money uld be borrowed at 5 per cent on call, provided the borrower would take United States Treasury notes. To-day these notes are in demand at a premium of 1/4 a 1/4 per cent. The banks are greatly embarrassed by the want of a circulating edium; a great relief will be felt when the go vernment begins to pay out the new notes freely-It is not supposed that money can remain tight for any length of time; meanwhile the brokers are paying seven per cent on call, and first class paper ng at 6 a 7 per cent. A heavy failure in the breadstuffs trade is announced. As a general rule, trade is very sound, and there are fewer ailures than usual at this season.

The pinch in the money market has had the efect of compelling some of the speculators in sreign exchange to sell, and bills are lower today. At the close first class bankers' bills were nght at 113, and 1131/4 a 1/2 would have probably uced the leading houses to draw. At second hand we hear of sales of bankers' bills below 113. Francs are quoted from 5.00 to 5.05. The dein gold and the increased activity in ey are fatal to exchange, while the improv ets of the national cause indispose the leadg bankers to draw more than they can cover at once. The imports of dry goods for the week endng to-day amount to \$1,097,531, against \$1,337,202 week last year, and \$3,778,034 same week of 1860. If the imports continue on this scale exchange will not advance; but if Congress does not levy additional duties on British silks, linens, woollens, worsteds and cottons the first indications of peace will lead to a large increase in our imports of these and other foreign goods, and ex-change will rise to a point which will insure heavy

The stock market to-day presented a healthy aspect, with a fair amount of outside business. The operations of speculators seem to have been checked by the increased inquiry for money and the uneasiness created by the absence of news from the war. In the meantime the public are tempted by the large increase in the earnings of the leading roads, and also by the general impression that the forthcoming issues of paper money will augment the traffic on the Stock Exchange, to invest in some of the railway shares. New York Central and the various classes of Erie securities are naturally the favorites among a large class. It is believed that the former has paid its last 3 per cent dividend, and that in August it will resume its old figure-4 per cent semi-annually. Erie is popular with many, who argue that the news of our successes will lead foreign holders, who have sold out their stock within the past year, to replace it as soon as possible. The condition of the company is better than it has been for many years. Other persons prefer the Western shares, and are tempted by the unprecedented increase in the traffic on the Michigan and Illinois lines. The Michigan Southern will show for its last fiscal year net earnings over and above interest and expenses equal to about \$400,000. the second mortgage bonds rose 1 per cent to-day; the sinking funds were active at 901/4 a 1/2, and the two classes of stock were both in demand at last quotations. Michigan Central fell off a fraction this afternoon. It is not known whether the empany will pay a midsummer dividend: but the increase in the carnings concurages holders to hope for one. Rock Island closed 1/2 lower tuan esterday; Toledo was steady, Galens 14 lower, sis Central 1/4 lower. All these roads, except the last mentioned, have fully as much to do as they can manage. The business in Southern State stocks has fallen off, as might have been expected. and prices are rather lower. Tenuessees declined % and Missouris ½; Virginias were steady. The advance in these stocks was too rapid to last. Both the coupon and restered stock of the United States declined 1/4 per cent to-day. The absence of news operates unfavorably upon specu-lation in these securities. The market closed steady, the following being the last quotations:ed States 6's, registered, 1881, 923/a a 921/4; do-6's, coupon, 1881, 923/6 a 923/4; do. 5's, coupon, 1874, 85 a 85; Indiana 5's, 77 a 80; Virginia 6's, 59 a -; Tennessee 6's, 59% a 591/2; North Carolina 6's, 68 a 70; Missouri 6's, 52 a 521/4; Pacific Mail, 931/4 a 347/4; do. preferred, 58% a 583/4; Hudson River 371/4 a 371/4; Harlem, 12 a 123/4; ; do. preferred. 291/4 a 293/4; Reading, 437/4 a 44; Michigan Central, 533/4 a 54; Michigan Southern and Northern Indiana, 23% a 24; do. guaranteed, 47 a 48; Panama, 119 a 1201/4; Illinois Central, 63 a 631/4; Galena and Chicago, 681/2 a 683/4; Cleveland and Toledo, 451/4 a 453/6; Chicago and Rock Island, 561/2 a 565 a; Chicago, Burlington and Quincy, 63 a 64; Milwaukee and Prairie du Chien, 201/4 a 21; Cleveland, Columbus and Cincinnati, 109 a 1091/2; New York Central 7's of 1876, 103 a 105; Erie third mortgage bonds, 961/4 a 961/4; Michigan Central 8's, first mortgage, 1021/4 a 1021/2; Illinois Central bonds, 7's, 94 a 94%; gold, 102% a 102%.
